EXPERIENCE

Kardigan

Princeton, NJ

Associate Director, Statistical Programming, Development

May 2026 – Present

- **Clinical Analytics & AI Platforms:** Architected enterprise data visualization and AI tools that automate clinical trial reporting and enable secure, interactive exploration of trial data, significantly accelerating cross-functional decision-making.
- **Data Engineering & Infrastructure:** Established a standardized, reproducible analytics environment across the organization. Developed secure data-access pipelines that eliminated the need for local data copies, strictly enforcing data governance.
- **Enterprise Compliance & Security:** Spearheaded the secure rollout of internal analytics platforms. Partnered with IT and QA to lead a risk-based validation strategy, ensuring all systems met strict regulatory standards (21 CFR Part 11, GAMP 5).
- **Strategic Leadership:** Directed statistical programming deliverables across major cardiovascular programs. Championed digital transformation initiatives by integrating modern automation while maintaining rigorous CDISC and GxP compliance for regulatory submissions.

Merck

Rahway, NJ

Lead Scientist, Statistical Programming

Nov 2021 – May 2026

- **Strategic Leadership & Governance:** Provided strategic leadership for statistical programming across multiple concurrent Phase 1-3 cardiovascular studies; contributed to the development of Statistical Programming SOPs and reusable code frameworks.
- **Study Delivery & Technical Oversight:** Oversaw end-to-end statistical programming deliverables including SDTM, ADaM, TLFs; led NDA/BLA eSubmission packages (Define.xml v2.1, eCTD, ADRG) in a 21 CFR Part 11 validated environment.
- **Innovation, Automation & AI:** Architected an enterprise AI platform with LLM/RAG pipelines enabling programming productivity gains; created py4csr (PyPI), an open-source Python framework for automated clinical study reporting.
- **Vendor Oversight & Collaboration:** Cooperated closely with CRO programming vendors to ensure compliance with internal standards and submission-ready quality; served as SME on the Data Standards Committee.

Regeneron

Basking Ridge, NJ

Senior Statistical Programmer

Jun 2020 – Nov 2021

- **Clinical Programming & Delivery:** Developed SDTM and ADaM datasets for Phase 1-3 oncology trials, including solid tumors and dose-escalation studies; implemented RECIST 1.1 tumor response endpoints.
- **Rapid Delivery & Vendor Integration:** Delivered ad-hoc analyses for DSMB meetings and regulatory interactions; managed external vendor data integration ensuring CDISC compliance.

Boehringer Ingelheim

Ridgefield, CT

Statistical Programmer

Feb 2018 – Jun 2020

- **Integrated Analyses & Standards:** Developed ISE/ISS pooled datasets for oncology and cardiovascular regulatory submissions; designed reusable SAS macro libraries improving efficiency.
- **Automation & Quality:** Established automated Pinnacle 21 compliance workflows; contributed to DaVinci open-source initiative (R Shiny visualization).

Talentech

Monmouth Junction, NJ

SAS Programmer

May 2017 – Feb 2018

- Built foundation in clinical trial programming: generated TLFs using standard ADaM datasets with strict CDISC compliance; developed core SAS macro expertise.

SKILLS

- **Technical Skills:** SAS (Certified), R, Python, SQL, Linux, Git; statistical computing environment (SCE) optimization.
- **Regulatory & Standards:** CDISC (SDTM, ADaM, Define-XML), Pinnacle 21, 21 CFR Part 11, ICH GCP; NDA/BLA eCTD submissions.
- **Domain Expertise:** Phase 1-3 Clinical Development, Cardiovascular, Oncology (RECIST 1.1), Pharmacokinetics (PK).
- **Leadership & Operations:** Strategic programming leadership, CRO/vendor oversight, SOP development, AI/automation framework governance.

EDUCATION

Harrisburg University of Science and Technology

PA, US

PhD, Data Science (Expected 2026)

Aug 2022 – Present

Research: AI/ML applications in clinical development with focus on regulatory compliance, validation, and automation governance

New Mexico Tech

NM, US

Master of Science, Applied Mathematics & Engineering

Jun 2017

Jilin University

Changchun, China

Bachelor of Science

Jun 2015

CERTIFICATIONS

- SAS Certified Advanced Programmer for SAS 9
- SAS Certified Base Programmer for SAS 9
